MC-GG773

Commercial Upright Vacuum with OptiFlow™ System

- 10-Amp Commercial Motor
 - Capped Motor for Added Protection
- Motor Protection System
- Tools On-Board
- Side Hinged Door
- OptiFlow Bag Chamber
- 50-Foot Quick-Change Power Cord
- Bypass Valve – Prevents Motor Damage
- 14-Inch Nozzle
- HEPA Exhaust Filter
- TriForce Agitator
- Automatic Carpet Height Adjustment
- 12.5-Foot Cleaning Reach
- Tool-less Belt Change
- Metal Base Plate
- Looped Handle with Soft Grip

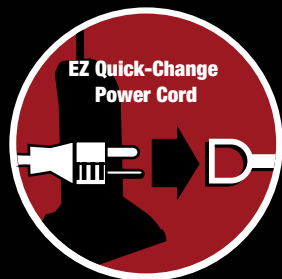

OptiFlow™

Panasonic ideas for life

MC-GG773

Panasonic Vacuums...Since 1954

EZ Quick-Change Power Cord

Let's you easily change the cord length or replace a damaged cord.

Cord Hook

The sturdy cord hook makes storing the 50-foot quick-change heavy-duty commercial cord easy.

Clean-Out Port

Provides easy access to clean away debris.

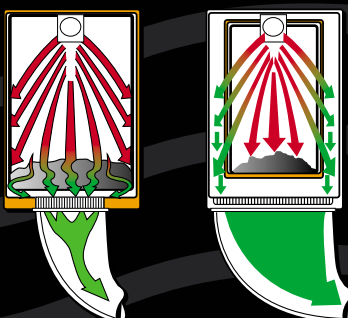

TriForce Agitator

Has three rows of brush strips for 50% more brush action than traditional two-row agitators.

OptiFlow System

In traditional bag compartments, air flow is restricted as the bag fills with dirt. Panasonic's new OptiFlow double-wall bag chamber allows restricted air to flow through the vented bag cage and into the gap between the walls. Air flows more freely, to maximize cleaning performance.

Double Wall Design with Removable OptiFlow Bag Caddy

Traditional Bag Compartment

NEW! OptiFlow Bag Compartment

Side Hinged Door

Swing-open door makes for easy bag and filter replacement.

Looped Handle

Soft, looped grip handle makes it comfortable to the touch.

Tools On-Board

The stretch hose and integrated tools are attached to the vacuum, allowing instant access to powerful, above-floor cleaning.

Bypass Valve

Helps prevent motor damage.

Belt Guard and Anti-Swallow Guard

The belt guard and power cord anti-swallow guard help to prevent broken belts.

MC-GG773 Specifications

DESIGN	
Color	Ebony/Yellow
Amperage	10-Amp Commercial
Motor	Capped
Motor Bearing	Ball/Stainless
Cleaning Design	Motor Protection System
