

## DebrisMaster DM-900 Sweeper

The DebrisMaster gas and battery sweepers are perfect for vacuuming large carpeted or hard surface areas, removing debris and fine dust in one pass. Easy to operate, their compact size and maneuverability make them ideal for cleaning in confined and congested areas as well as large areas.

### features:

- Main Housing Cover**  
 It can be easily removed for brush adjustment, machine maintenance and access to the battery.
- Main Brush**  
 Sweeps up dirt and debris in a straight line, while the side brush cleans up to edges and under baseboards. Both brushes are adjustable for maximum sweeping.
- Low Voltage Cutoff System**  
 Monitors battery so it never runs down below 20%, protecting the sweeper and prolonging the battery life.
- Two Hoppers**  
 Collect debris and lift off for easy emptying.
- Electronic Filter Shaker**  
 Allows operator to clean the filter without removing it.
- Automatic Charger**  
 With built-in plug on control panel, just plug in charger.
- Carpet Upgrade Brush**  
 Brush upgrade for carpeted and hard surface floors.
- Battery Requirement**  
 One 12V, 115AMP Battery (438278)  
 \*Not Included
