

## specifications

**Vacuum Motor:**  
110 Volt, 2 Stage 1.6 HP;  
106 CFM - Waterlift 98"  
**Watts:** 1200  
**Sound Level:** 60dB  
**Power Cord:**  
33 Ft, 3 Wire Grounded  
Safety Yellow  
**Recovery Capacity:** 9 Quarts

**CT9** Dry (457868)  
with 1 1/4" Tool Kit

**CT9-PWR** Dry (202312)  
with Power Nozzle

**CT9**

## specifications

**Head:** Non-Electric  
**CFM\*:** 170 Output / 100 Working  
**Waterlift:** 250" (165" Safety Control)  
**Sound Level:** 75dB

**MAV-15B** Bare (313319)

**MAV-15W\*** Wet/Dry (313335)  
**Steel Tank Recovery Capacity:**  
12 Gallon Wet/1.60 Bushel Dry  
*\*Includes: Wet/Dry Tool Kit*

**MAV-20B** Bare (313181)

**MAV-20W\*** Wet/Dry (313246)  
**Steel Tank Recovery Capacity:**  
16 Gallon Wet / 2.00 Bushel Dry  
*\*Includes: Wet/Dry Tool Kit*

**MAV-P488** Bare (320102)

**Poly Tank Recovery Capacity:**  
8 Gallon Wet/1.10 Bushel Dry

**MAV-P415B** Bare (313432)

**MAV-P415W\*** (313467)  
**Poly Tank Recovery Capacity:**  
16 Gallon Wet / 2.00 Bushel Dry  
*\*Includes: Wet/Dry Tool Kit*

**DAK-MAV16** Bare (313718)

Drum Adaptor Kit  
Fits 35 - 65 Gallon Drum

*\*Based on 1/2" ID Air Line @70 CFM  
90 PSI Minimum Required*

**MAV-20B**

**MAV-P415**

## CT-9 Compact HEPA

This compact HEPA vacuum is designed for use in hospitals, clean rooms, laboratories, or wherever air and dust pollutants exist.

The CT-9 is extremely quiet and is equipped with a powerful 1.6 motor with a sound level of 60dB.

The CT-9 is designed with a unique 5 stage filtration system that includes two hospital grade HEPA filters, HEPA filter cartridge and motor exhaust HEPA filter and paper filter bag.

The HEPA exhaust filter is easy to

replace, just slide out the old filter and slide in the new filter.

Molded of polypropylene plastic, it won't dent or crack and is resistant to chemical attack.

Equipped with 2" wide front casters and 3" rear wheels for excellent stability and mobility

### 1 1/4" Tool Kit Includes

- Telescopic Wand
- Curved Elbow Wand
- 9 Ft Vinyl Hose
- Dusting Brush
- Plastic Crevice Tool
- Plastic Floor Tool

## Compressed Air-Operated

MAV compressed air-operated vacuum is an alternative when electricity is not available or for industrial applications.

These vacuums deliver the extra high suction power required for fast pickup of liquids, sludge, and recovery of valuable metals.

MAV vacuums are designed for wet or dry pickup. They are easy to maintain because there are no moving parts.

The venturi head is designed with a built-in safety pressure control and easy to read pressure gauge.

Automatic pressure release safety valve is pre-set at the factory to maintain constant operating efficiency.

The acoustical muffler reduces the sound level of the vacuums.

MAV bare models come with a dry filter assembly and are available with steel tanks, poly tanks or as a drum adaptor kits. Tool kits and wet pickup adaptor are optional.

MAV wet/dry models come with dry filter, wet pickup adaptor and wet/dry tool kit.

### 1 1/2" Wet/Dry Tool Kit Includes:

- 5 Ft Metal Wand
- 10 Ft Vinyl Hose
- 1 1/2" Swivel Hose Connector
- 14" Metal Carpet Tool
- 14" Metal Floor Tool
- 11" Plastic Crevice Tool
- 6" Upholstery Tool
- 14" Metal Squeegee
