

XA-300C Airmover Heavy Duty Floor Dryer

Use the XA-300C Airmover on carpeted or hard floors after regular cleaning, finishing or flood cleanup for accelerated drying and room ventilation.

The XA-300C stands in three positions for adjustable direct air application. Place it flat on its feet or tilt it 45 or 90 degrees. The specially molded body is made to interlock with the handle and feet of another machine, so for ultimate power up to three units can be stacked together for tandem operation.

Rotationally molded hi-density polyethylene construction, resists corrosion and won't dent. The XA 300C Airmover features a specially designed sturdy carry handle that also provides a secure cord wrap for convenient storage of the power cord and easy, safe handling.

Stack up to three machines for powerful tandem operation

Top handle cord wrap

3-Speed Rotary Switch

Molded-in handle dock for stacking up to three Airmovers

Features:

3 Speed Operation

Side control panel features a large easy to see 3-Speed rotary switch with a choice of three operating speeds. 1500, 2000, 2500 CFM.

Motor

Powerful 120 Volt .5 HP 3 Speed motor. 25ft 16/3 Wire Grounded Power Cord.

Body and Frame

Rugged rotationally molded hi-density polyethylene construction resists corrosion, won't dent and is light enough to handle and carry.

3-in-1 Cabability

Specially molded body is made to interlock with another machine's handle. Up to three units can be stacked together for tandem operation.

Versatile Operation

Stands in 3 positions: flat on its feet or tilted 45 or 90 degrees for direct air application.

Sturdy, Multifunction Top Handle

Part of the single piece molded body for utmost durability. Carrying handle also functions as a dock to stack another airmover as well as a secure cord wrap for easy and safe transportation.
