

## DebrisMaster DM-700B Battery Sweeper

Sturdy and versatile, The DebrisMaster DM-700B 28" Battery Sweeper is perfect for vacuuming large carpeted or hard surface areas, removing debris and fine dust in one pass.

Easy to operate, the compact size and maneuverability make it ideal for cleaning in confined and congested areas as well as large areas.

**DM-700B**

Specifications	DM-700B
Order No.	445746
Cleaning Width	28" (w/ Side Broom)
Working Capacity	26,900 sq ft/hr
Hopper Capacity	13 Gal
Noise Level	55 db
Motor (drive)	12 V, 28 amps
Airflow	59 cfm
Battery Voltage	12V
Brush Speed	135 rpm
Battery Type	Gel or Lead Acid
Run Time	Approx. 2.5 hrs
Filter Surface	13.5 cu ft shaker

### Features:

#### **Main Housing Cover**

Can be easily removed for brush adjustment, machine maintenance and access to the battery.

#### **Main Brush**

Sweeps up dirt and debris in a straight line, while the side brush cleans right up to edges and under baseboards. Both brushes are adjustable for maximum sweeping.

#### **Two Hoppers**

Collect debris and lift off to easily empty out debris.

#### **Electronic Filter Shaker**

Allows operator to clean the filter without removing it.

#### **Automatic Charger**

Built-in plug on control panel. Just plug in charger when needed.

#### **Carpet Brush Upgrade**

Brush upgrade available for carpeted and hard surface floors.

#### **Low Voltage Cutoff System**

Monitors battery so it never runs down below 20%, protecting the sweeper and prolonging the battery life.

#### **Battery Requirement**

One 12V, 115AMP Battery (438278) \*Sold Separately
