

Big Red B650 Hand Blower

Sturdy and versatile, the Big Red B650 hand blower is designed for a variety of commercial uses. It's unique shape creates a strong vortex and directs a large volume of air at a high velocity through the molded 3/4" nozzle.

The Big Red B650 has the power to fill commercial river rafts to capacity, yet its nimble enough to be a balloon decorator's tool.

Great for plants and factories, the Big Red is perfect for blowing dust particles away from surfaces, vents and machines. It can be used to dry small areas as well. The Big Red B650 is a great tool for HVAC operations, plumbers, groomers and more as a both a cleaning tool and an inflator.

Spun aluminum body with a painted finish. Equipped with large thumb switch for one handed operation and 30 foot power cord for working large areas without changing outlets.

Unique shape creates a strong vortex of high velocity air.

SwitchThumb switch design on sturdy metal handle

Features:

Sturdy Body

Spun aluminum body with a tough painted hammermark finish stands up to time and hard work.

Motor

Powerful 120 Volt 1 HP 2-Stage Air-Thru motor created a high-velocity air blast.

High Air Volume

A high volume blast of air can be directed to blow out hard to reach areas. Great for inflatables.

SwitchThumb Switch Design

Specially designed for one-handed operation, the Big Red's large power switch is easily visible and takes a beating without breaking.

Power Cord

Generous 30 foot 18/3 wire grounded power cord allows work in large areas with less interruptions to change outlets.

Sturdy Metal Top Handle

Forget plastic handles that crack. Big Red features a large rugged metal top handle with an easy grip design that lasts.
