

## the QC Single Motor

Durable and lightweight, this upright offer the advantages of commercial vacuums at an economical price.

Equipped with a DualOp™ clean air high performance motor that provides quality cleaning performance.

Equipped with a metal base plate and ball bearing metal brush roller with replacement brush strips.

Infinity™ self-adjusting nozzle adapts to carpet height automatically as you are cleaning.

Includes fail-safe air relief valve that protects the motor automatically from heat overload, metal handle with vinyl grip and metal cord hook.

Quick release system gives easy access to belt and brush roller. The belt is quick and easy to change with NO tools required.

Front dust cover is easy to remove for quick access to the filter bag.

The QC-1415 has a 14" edge-to-edge brush cleaning path and triple filtration system that includes a totally enclosed microply® filter bag, foam exhaust guard filter and HEPA filter.

QC-1415 Plus

### specifications

**QC-1415 Plus** (421952)

*Motor:*

DualOp™ Clean Air 120 Volt, 60 Hz; 120 CFM - Waterlift 80"

*Current:* 10 AMPS

*Brush Roller:* Metal, Ball Bearing

*Brush Strips:* Replaceable

*Drive System:* Flat Belt

*Power Cord:*

50 Ft, 3 Wire Grounded

*Includes:*

Paper Filter Bag; On-Board Tools

Stretch Hose (1½ to 8 Ft);

Oval Dust Brush; 14" Crevice Tool;

19" Extension Wand.

*Optional:*

Reusable Cloth Filter Bag (450162)

## TwinMaster® Dual Motor

The TwinMasters® with a dual motor system are designed to meet the rigorous requirements of daily commercial cleaning.

One motor is for the vacuum and another motor drives the agitator brush to loosen and release embedded dirt from carpets right up to the baseboard on the right side.

The brush strip is easy to remove and replace.

Constructed of impact resistant injection molded plastic, and are equipped with four position carpet height adjustment and full bag warning indicator.

Top fill dirt collection system with triple filter is engineered for maximum dirt recovery, and allows the disposable paper bag to reach maximum fill capacity without losing cleaning efficiency.

A thermal overload protects the motors from overheating and clean fan system eliminates the possibility of motor fan breakage.

The cog belt drive design is mounted off center and shielded for a clear cleaning path.

It's low profile and offset nozzle reaches under and around furniture and in other hard to clean areas.

The brush motor automatically disengages for above-floor cleaning. Built-in stretch hose, wand and tools provide the flexibility needed to clean in hard to reach areas efficiently and quickly.
